Milwaukee, WI

Information on the Host Hotel and Venue will be released in early 2025. Your Story, Your Vision, Your Legacy

A Welcome Letter from your new National Director, Dylan B. Dickherson White

As cliché as it may seem, I'd like to congratulate you on taking the first step toward joining the Trans USA family. Opening this packet means that you have a story to tell, a vision for your future as a representative of the transgender community, and a legacy you'd like to build using this platform.

While it is true that many of our formers have found success as entertainers in the drag industry, we believe in showcasing the vast array of trans experiences and the myriad ways in which our community provides a positive contribution to society. As such, Trans USA was not designed with a focus on drag entertainment alone, and there is no Talent category. I've been an entertainer for so long, and many of the most valuable skills I use in my daily life are a direct result of my experiences in this industry and with drag pageantry. So, when I opened my packet for the first time like you're doing now, I really had to ask myself: What else do I have to offer? What else makes me the right choice? And what message do I want to send?

It was absolutely one of those "light bulb" moments they talk about. And when it hit me, I made a promise to myself and to my community. I refused to present my story in such a way that said that I thought of myself as a victim, of my own life as a series of traumatic events one after another, and of myself as less than those who have not had experiences similar to mine.

Our mission has been to rewrite the narrative that our lives are defined by our trauma, whether collective or individual. Though some details of the plot may be immutable, we get to choose how our stories are told. We are not our pain, and there is no need to lower the bar for us.

My reign as Mr. Trans USA 2022 was instrumental in preparing me for this new role as your National Director (officially). It taught me just how much power we have as a unit, just how much fight we have in us when one of our own is in need, and just how impossible it is to describe this experience to someone looking in from the outside. There's nothing quite like it. There's nothing quite as transformative or uplifting—aside from maybe transition itself—as embarking on a journey alongside dozens of your trans peers from around the country, all of you working toward the same goal despite your unique skills and experiences. It is my hope that, even if you had never considered entering a pageant before, you will take this leap to join in making trans history once again.

We can say all we want about trans excellence and what it means to wear that sash (and we will!), but for now, let's leave it at the most important one.

This is your chance to be the hero you needed growing up. What are you waiting for?

Sincerely and with love,

Dylan B. Dickherson White

National Director, Trans USA
Mr. Trans USA 2022

Trans USA National Pageantry

Purpose and Vision

Founded by Gerardo Chavez and Luis Perez, The Trans USA National Pageantry System strives to celebrate and promote the development of transgender, non-binary, and gender-nonconforming leaders as visible advocates and role models for the community at large.

The primary function of Mr. Trans USA is to serve as an active representative of the transgender, nonbinary, and gender non-conforming community; maintain visibility as a positive role model for trans youth and the community at large; and engage in opportunities that promote productive discussions at multiple and often intersecting levels. Trans USA is not a drag pageant, and performances are not required. Each representative should aim to embody these roles in the ways most appropriate to their personal and professional life.

Eligibility

Mr. Trans USA is open to United States citizens and lawful permanent residents assigned female at birth and identifying as transgender/non-binary. Contestants must be 21 years of age to compete.

Note: The Trans USA Board reserves the right to refuse registration in exceptional circumstances involving severe misconduct, irreconcilable offenses, or patterns of behavior that fail to meet the professional standards specified in the most recent version of the handbook. See "Misconduct" section below.

Contestants who have competed previously are welcome to apply; however, there is a two-year limit on representing the same state consecutively. One of the goals of Trans USA is to increase visibility and encourage growth, which includes mentoring others to come and represent. If a contestant has represented the same state two years in a row, they may choose another state or one of the following approved regional titles:

- Great Lakes
- Mid-Atlantic
- New England
- Gulf Coast
- Great Plains
- Cascade Mountains
- Southwest
- Midwest

Once qualified for the Trans USA 2025 National Contest, contestants may not compete for any other pageant system. Participation as a contestant in another pageant during the calendar 2025 year will result in disqualification from the National Contest, as well as a minimum one-year ban from registration for Trans USA.

Special Awards

Decided by *Mr. Trans USA 2024, Scrappy Legacy*

Outstanding Advocate

To be selected by the reigning Mr. Trans USA, Outstanding Advocate will be awarded to the contestant providing the greatest contribution to a charity of their choosing. Contributing factors will include time, labor, money raised, and visibility provided for the organization. **Contestants wishing to be considered for this award must submit an official physical or digital letter from their selected charity by registration at the national competition**, which should detail the contributions provided by the contestant. Letters can be handed in person to a member of the administrative team at the national competition, or emailed to admin@transusanationalpageantry.com

Without providing a letter from their chosen organization, contestants will not be eligible for this award.

Purpose

Contestants choosing to raise funds for pageant expenses are often successful when selecting a charity to highlight during the process. Most often, contestants raising funds in this manner will contribute 50% of the donations to their selected charity and the remaining 50% to pageant expenses.

To participate, contestants may select any 501(c)(3) with an impact in the trans community, including the Trans USA National Pageantry system. Although participation is strongly encouraged, **no additional points or favoritism in scoring will be shown to contestants based on the charity they have selected or whether they choose to participate in the running for this award.**

Most Visible

To be selected by the reigning Mr. Trans USA, the Most Visible Award will be presented to the contestant who has exhibited the most active engagement in the community across social media and at in-person events from registration at the state level until the final night of competition. This award serves to highlight the individual who has already been doing the work of Mr. Trans USA in the months prior to the competition, regardless of placement on final night.

Contestant Gifts

All contestants will receive a special gift from the reigning Mr. Trans USA at registration.

Mr. Trans USA 2025 Categories and Scoring

REGISTRATION

Registration is not scored; however, contestants must be present to officially be considered qualified for the contest. Late arrival will result in administrative deductions. Registration attire will be a **plain white shirt (no logo, images, etc.), blue jeans, and state sash**. Accessories should be at the discretion of the contestant. A group photo will be taken at the end of registration. Contestants will be provided with an explanation of the itinerary and updated on expectations at this time.

NOTE: The point totals listed below are intended to reflect the relative importance of each category and subcategory. Trans USA utilizes weighting factors to scale the entered scores appropriately (i.e., percentages). The full explanation of the scoring system is included below the explanation of the last category.

PERSONAL INTERVIEW

Each contestant will be interviewed individually by the judges. The purpose of the interview is to allow some insight into the character, background, and experience of each contestant. The time limit for the interview category is **7 minutes**. Each contestant should be prepared with a short opening bio. The timer will begin when judges ask contestants to share a little about themselves. The opening statement should not be longer than 2 minutes. Points will not be deducted for longer bio; however, the interview will end at **7 minutes**, regardless of how many questions the judges have had time to ask. Interview attire is up to the contestant and may range from casual daywear to professional corporate attire. Although this is not a fashion category, contestants are expected to present themselves neatly and in properly fitted attire. An alert will be given one (1) minute prior to reaching the time limit, following which the contestant will be given an opportunity to provide a final comment or question.

Note: Although many of our titleholders have found success in drag pageantry, contestants should be mindful that Trans USA is not a drag pageant. Therefore, the interview process will encompass other issues affecting the trans community as well.

STATE COSTUME

The time limit for this category is 3 minutes. The time begins when the music starts and ends when the microphone is returned to the emcee. Contestants will first model their costume. Contestants are not required to follow a specific formation or hit designated points when modeling. This category should be perceived as a “Creative Costume” category and is not intended to be a performance. If the submitted music contains lyrics, contestants should avoid lip syncing when modeling. Contestants may choose their own music to accompany the costume design, or they may choose to use house-provided category music. After modeling, each contestant will be given the microphone, at which point they will state their name, the state they are representing, and give a short description of why they chose their costume. Contestants will be judged on construction/fit, modeling, creativity, and communication of concept.

Notes: Contestants wishing to provide their own music **should email an mp3 file to admin@transusanationalpageantry.com no later than 2 weeks prior to the national contest.**

Costumes may have lights or motorized parts, but these must be battery operated. No power or extension cords should be required to power costume components. In addition, use of fire, water, excessive loose glitter, or other materials that may harm those in attendance is prohibited, as is the use of live animals. The costume must be worn so that the contestant can walk on to the stage without assistance. ***No on-stage escorts are permitted in this category.*** There is no set up time for this category, so props contestants cannot carry themselves are not recommended.

Creativity

0 to 20 Points

- Contestants will be judged on their ability to create a look that is unique. When constructing an outfit for this category, contestants are encouraged to put thought into their concepts and go beyond the surface level to truly create something captivating. Quality of construction/fit

0 to 20 Points

- Contestants will be judged on how well the costume is constructed and the appropriateness of fit on their body. Costumes should be of high quality, meaning that they are free of tears, cosmetic damage, appear sturdy, and showcase

craftsmanship/skill in construction. All garments should be tailored to the individual contestant for a perfect fit.

Full nipple coverage is required for contestants who have not had top surgery. This may be through the use of Trans Tape, a binder, a shirt, or a preferred swim top. SCORING

Scores for Trans USA are computed using Tally Genie, the tabulation software used by Miss Universe, Miss Earth USA, Miss Teen America, USA National Miss, and numerous other prestigious national and international systems.

Weighting factors for each category/subcategory were computed and validated by Tally Genie using the exact information and breakdown in our packet.

To eliminate guesswork and subjectivity for the judges, all scores for each subcategory are entered on a scale of 0-100, and the software automatically weights each score appropriately, meaning that we no longer have to worry about how much a deduction of 5 points really means for categories with different maximum totals. Consistent judging can now be applied across all subcategories. Each judge uses a personal electronic device to enter their scores into a site with an event-specific passcode. All scores entered are marked with a timestamp, and inconsistencies are flagged for staff review.

The highest and lowest scores within each SUBCATEGORY are dropped for each contestant. Scores in each subcategory are multiplied by the above-mentioned weighting factors (percentages), ultimately resulting in a maximum possible score of 500.

The weighting factors reset for the Top 5 contestants to account for the inclusion of the Q&A category in the final 100% (i.e., the total maximum score will still be 500 points).

We believe that, as the nation's premier trans-only pageant, only the tools used by the experts in the pageant industry should be used to ensure fairness and to eliminate human error that can arise when trying to enter all scores from sheets of paper within a limited amount of time.

Contestants receive copies of the direct output of the tabulation software, without modification for visual purposes, for complete transparency.

Weighting Factors

Elimination Tally Weighting Factors are used prior to Q&A. The top 5 contestants in each division will be selected based on the scores achieved using these weighting factors. For contestants not in the top 5, the resulting scores will be the final scores.
